### Vineyard + Soil

- Corcelettes Estate Vineyard, Upper Bench, Keremeos  
*"Stemwinder" - alluvial deposit & "Similkameen" gravelly sandy loam. Gnarly and extremely coarse soils eroded from steep mountain walls. Situated on the higher, south facing regions of the valley providing an extended growing season. Dry, windswept and extreme daytime heats. Exposed rock faces 'sink' and radiate heat well into the night.*  
*Vineyard rows are North/South orientation, VSP trellis system.*
- Second Chance Vineyard, Cawston  
*Nisconlith sandy/silty loam. Fluvial deposits. Ranging from very fine to coarse, in veins. Think abandoned riverbeds or oxbows. Site benefiting from morning dews and reduced overall heat, with extreme high-lows which preserve acidity and aromatics. Vineyard rows are East/West orientation, VSP trellis system.*

### Growing + Crafting

- Sustainable, responsible and healthy farming practices
- Organic practices include use of kelp/seaweed products
- Cover crops, in-row mulching, leaf removal and general canopy management combined with a well implemented integrated pest management program and our dry + windy region, yields a growing environment naturally resilient to disease and pests
- Weather stations, soil moisture probes and a semi-automatic irrigation system allow us to micromanage water needs and as result, water use
- All fruit and vines are hand tended, hand harvested, and hand sorted
- Various small lot harvests throughout Sept + Oct 2019
- 80% Pinot Noir, 20% Syrah
- Whole cluster pressed, zero skin contact to retain the perfectly pale pink hue
- Cold, long ferment in stainless steel to preserve aromatics and freshness

### Tasting + Pairing
