Vineyard + Soil

- Corcelettes Estate Vineyard, Upper Bench, Keremeos "Stemwinder"- alluvial deposit & "Similkameen" gravelly sandy loam. Gnarly and extremely coarse soils eroded from steep mountain walls. Situated on the higher, south facing regions of the valley providing an extended growing season. Dry, windswept, and extreme daytime heats. Exposed rock faces 'sink' and radiate heat well into the night.
- Corcelettes Estate Vineyard, Upper Bench, Keremeos Nisconlith sandy/silty loam. Fluvial deposits. Ranging from very fine to coarse, in veins. Think abandoned riverbeds or oxbows. Site benefiting from morning dews and reduced overall heat, with extreme high-lows which preserve acidity and aromatics. Vineyard rows are East/West orientation, VSP trellis system.

Growing + Crafting

- Sustainable, responsible, and healthy farming practices
- Organic practices include use of kelp and seaweed products, as well as a small resident herd of sheep for leaf removal, weeding, and soil fertility
- Cover crops, in row mulching, leaf removal and general canopy management combined with a well implemented integrated pest management program and our dry + windy region, yields a growing environment naturally resilient to disease and pests
- Weather stations, soil moisture probes and a semi-automatic irrigation system
- All fruit and vines are hand tended, hand harvested, and hand sorted
- Various small lot harvests throughout Sept 2019
- 80% Pinot Gris, 20% Chardonnay
